

Planters

Designed and built in the designer workshop these planters are made of FSC certified clear western red cedar.

In this case a dark stain provides a beautiful contrast to the clear cedar passageway.

These three planters make a stunning impact either indoors or out. Each one is built and stained to withstand the elements and comes with a Galvanized Steel insert.

These planters come in three sizes and are priced at \$1200.00, \$1600.00 and \$2000.00. This includes your choice of stain. The two larger sizes come with galvanized steel liners.
